

must!
charities

**TODAY IS WHERE WE ARE.
RIGHT WHERE WE NEED TO BE.**

We are emerging from a pandemic, evolving in this new world, and more determined than ever to build a stronger community and transform lives. Even with the uncertainty and unease of the times, we found in our community a resolve to lift others, to come alongside neighbors facing challenges never before faced and to support must! charities in a way we never could have expected.

Because of you, we transformed more lives than ever before.

We celebrate the wins of the last year, but we also look ahead. Where we go is entirely up to us...

together, collectively, collaboratively.

A handwritten signature in black ink that reads 'Becky'.

Becky Gray
Executive Director
must! charities

BECAUSE OF

Maria was struggling to keep up in classes and found with her single mother working more to make ends meet, she didn't have anyone to ask for help on increasingly difficult homework. Embarrassed and thinking she was the only one struggling, she would not ask questions in class.

Because of you ...we are able to invest in Camino Scholars by People's Self-Help Housing. Maria is able to go to the learning center at her apartment complex after school.

She works with mentor-educators on her homework, completes exercises to improve her math literacy, and helps the younger kids with their homework. Maria is not only at grade level, but is ahead of peers. She has also gained confidence to engage more in class discussions.

YOU

For the Garcias, it was always a struggle to find a place for their son, David, to go after school. Each day would be a different family member or friend that would take care of David until the Garcias got home from work. It was hectic and it was disruptive for David's routine.

Because of you... we invested in a year-round Boys and Girls Club in Shandon and David was one of the first kids to enroll. He spends time after school each day at the Club doing homework, playing with friends, and participating in club-sponsored activities. He wants to be an engineer one day, but for now he just wants to keep playing and laughing with his friends. For the Garcias, they appreciate the consistency the Club offers, the life lessons taught and yes, they like that he can hang out with his friends.
